Woody,

We received your email and have initiated the process of gathering the information you requested. However, there are two questions that we need clarified:

1. In paragraph 3. What is meant by "individual data points"?
2. Also in paragraph 3. We are not required to run TDS. Do you want us to do this for your analysis?

We basically have, or we are compiling, the other items you requested and should have them for you shortly.

Regards,

Anthony E. Cialella
